## Connection and Appropriate Use of Student and School Owned Devices on the Dalyellup Primary School Network.

### Background

This following 4 points relate to the connection and use of **student** and **school owned** devices (iPads) at Dalyellup PS. By using an iPad that is connected to the Dalyellup Primary School Network, students are required by the Education Department to agree to the following conditions:

1. Students must take care of whatever device they use, be it their own or one owned by the school. Any student who misuses an iPad will have the privilege of using the device withdrawn.
2. When connecting to the Internet at school, student must only access websites that are appropriate and relevant to what the teacher has asked them to do.
3. Any data stored or installed on a **student owned** device is the responsibility of the Parents of the child, and they are encouraged to check this regularly.
4. Any photos or videos that are taken with **school owned** iPads are automatically uploaded from the photo album to an App called Dropbox which is checked and cleared regularly. Students need to consider this prior to taking photos.

Please take the time to discuss the above points with your child, and sign below on behalf of your child to indicate that he/she understands and agrees to use an iPad at school according to the above conditions.

If you have any questions regarding this, please contact me at the school.

Phil Greenmount  
Deputy Principal  
Dalyellup Primary School
